DETAILED ACTION

Applicant's election in the response filed on October 14, 2010 is acknowledged and has been entered. However, the timely submission under 37 CFR 1.129(a) filed is not fully responsive to the prior Office actions because Applicant failed to include an election of the invention to be examined as outlined on page 2 (4th full paragraph) of the Office Action mailed June 16, 2010.

Applicant is advised that in order for the reply to this requirement to be complete, Applicant must: include an election of the invention (e.g., species) to be examined even though the requirement is traversed. (See 37 CFR 1.143). Here, Applicant elected several compounds. Again, Examiner directs Applicant to page 2 (4th full paragraph) of the Office Action mailed August 266, 2010, which clearly states "that the reply to this requirement to be **complete must include (i) an election of species to be examined**" (emphasis added). Thus, in order for the reply to this requirement to be complete, Applicant must include an election of the invention (e.g., species) to be examined. For example, Applicant should choose one of the examples (that falls within the claimed invention) in the Specification

Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a). If a notice of appeal and the fee set forth in 37 CFR 1.17(e) were filed

prior to or with the payment of the fee set forth in 37 CFR 1.17(r), the payment of the fee set forth in 37 CFR 1.17(r) by applicant is construed as a request to dismiss the appeal and to continue prosecution under 37 CFR 1.129(a). The appeal stands dismissed.
